

Analyze your data

- with multidimensional views

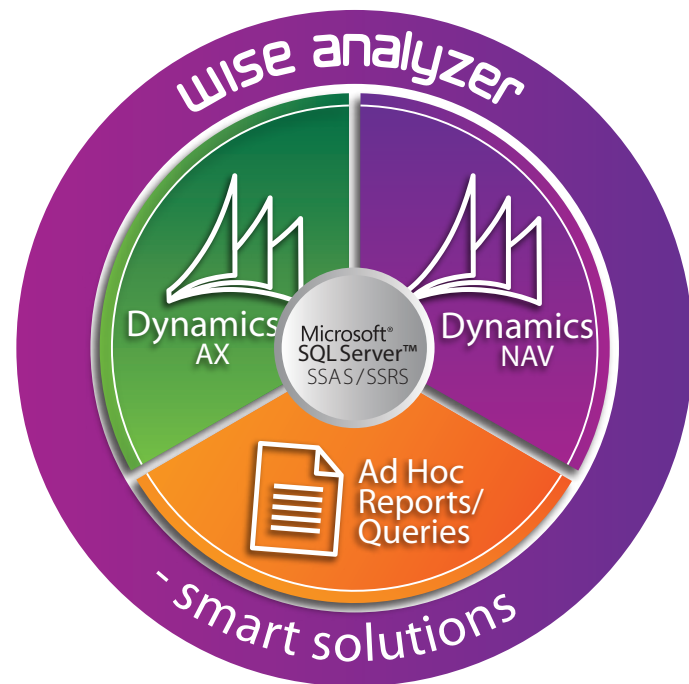

About Wise Analyzer

- Wise Analyzer is a software solution that gives you enhanced capability to monitor and analyze management information.
- Wise Analyzer processes data in real time and can use functionality such as OLAP cubes for multi-company and multidimensional views.
- Wise Analyzer simplifies decision making, giving managers an improved overview of their operation.
- This user-friendly solution is easy to install and works with newer versions of Dynamics NAV and Dynamics AX.

View results by your set targets and easily understand the implications of your data.

OLAP Cubes

Choose between cubes that analyse data from sales, purchasing, stock, business demands, creditors, budget, supplies and workbook accounting.

Wise Analyzer features

- A wide range of real-time analytical tools.
- Easy and flexible ways to filter data.
- Sophisticated Report Builder with pre-defined templates.
- Powerful graphics.
- Visual Query Builder for ad hoc reporting.
- Add both custom and standard fields from NAV tables "on the fly".
- OLAP perspectives are saved centrally for all to use. It is therefore the perfect end point for OLAP cubes.
- Identify trends – both beneficial ones and also causes for concern.
- Automatic updates.

wise analyzer and wise cubes

OLAP CUBES

The user can choose cubes that analyse sales, purchases, supplies, budget or other standardized Microsoft Dynamics NAV system units. Then choose a convenient form to publish and analyse the information, such as Wise Analyzer or Microsoft Excel.

Key benefits

- Financial analysis / financial diagram.
- Sales analysis / order analysis.
- Purchase analysis / order analysis.
- Stock analysis.
- Analysis on receivables.
- Workbook accounting analysis.

OLAP Cubes Overview

- Simple to install and use.
- Compares real live business figures and goals of the company.
- Gives an overview of the company's business and provides you with a powerful analytical tool for business intelligence.
- Saves time so managers can focus on their core operations.
- Designed by experts with decades of experience using business software.
- Multicompany

Wise Cubes allows you to see your financial, business, accounting, stock and process information in a wide range of views.

About Dynamics NAV

Microsoft Dynamics NAV offers integrated ERP (Enterprise Resource Planning) business applications from Microsoft that help organizations streamline their business and increase productivity.

Part of the Microsoft Dynamics family, Dynamics NAV combines finance, manufacturing, customer relationship management, supply chain, analytics and e-commerce functionality packaged together with a core world-class accounting system. The product is developed for small and medium-sized companies with up to 250 concurrent users.
